## ARRIVALS OVER LAKE CASITAS

ATIS: 126.025    POINT MUGU APPROACH: 124.7    CAMARILLO TOWER: 128.2    CAMARILLO GROUND: 121.8

### CHECK CAMARILLO ATIS ON 126.025 AS SOON AS PRACTICAL.

This procedure begins over Lake Casitas at **5500 feet MSL**. If not already in communication with ATC, contact Point Mugu Approach on **124.7** prior to arriving over Lake Casitas. Do not proceed beyond Lake Casitas until in contact with Point Mugu Approach.

**Caution: Stay alert for converging traffic.**

If instructions to continue inbound have not been received or if traffic volume requires holding, follow the hold procedure as depicted in the *LAKE CASITAS HOLD GRAPHIC*. All aircraft should fly **left turns** at **5500 feet MSL**.

**Caution: Stay alert for converging traffic as well as other traffic that might be holding over Lake Casitas.**

When holding is no longer required, aircraft should complete the hold and expect to fly direct to Oxnard Financial Plaza, 12 NM southeast of Lake Casitas on an approximate heading of 138°. Oxnard Financial Plaza is located just west of the Ventura Freeway (101) approximately 3.5 NM west northwest of Camarillo Airport.

Begin descent to traffic pattern altitude at pilot's discretion.

**CMA TPA: 877 feet MSL light aircraft; 1077 feet MSL multi-engine/turbine aircraft**

Expect radar services to be terminated prior to reaching Oxnard Financial Plaza and to be instructed to contact Camarillo Tower on **128.2**.

From Oxnard Financial Plaza, Camarillo Airport is 3.5 NM southeast on an approximate heading of 105°. Depending on wind conditions, expect to fly a left downwind for runway 26 or a straight in final for runway 8. Do not cross the 101 until after passing Rose Avenue.

After landing, do not stop on the runway unless absolutely necessary. Exit the runway as quickly and as safely as possible. Continue forward far enough so as not to block subsequent arrivals. **UNLESS OTHERWISE INSTRUCTED BY ATC; continue to taxiway Foxtrot and MONITOR Ground on 121.8.** At taxiway Foxtrot, follow Marshaller's instructions to the designated parking areas.

## IFR DELAYS

IFR reservations are not required, however due to heavy arrival traffic for the event IFR arrivals and departures will be severely limited. IFR separation requirements may cause delays when arrival rates exceed airport capacity. Pilots on an IFR flight plan should be prepared for potential holding. IFR flight plans to Camarillo Airport should be filed **at least 2 hours prior** to proposed departure time. **VFR flight on designated arrival routes is highly recommended if practical.**

## AIRPORT CLOSURE

Camarillo Airport will be closed from sunset to sunrise on Thursday, April 27 to Friday, April 28 and on Friday, April 28 to Saturday, April 29.
