“General aviation has a lot to offer, and we have the power to **share the fun**, the freedom, and the amazing opportunities that come with being a pilot.”
Whether you’re just getting started in aviation or you’ve been flying for years, I’m confident you’ll find the resources, tools, and support you need to get inspired, sharpen your skills, keep informed, and stay connected with the general aviation community.

This member guide provides a quick reference to the many exclusive benefits, services, and opportunities available to you as a member. You may also access the Membership section on the AOPA website (aopa.org) for updates and additional member information.

I encourage you to make the most of your membership by taking advantage of everything AOPA has to offer, from free flight planning to award-winning publications, to medical certification and insurance services.

If, at any time, you have suggestions to help us serve you better, please let us know. And, thank you for being part of the world’s largest aviation community. We’re glad to have you aboard.

Mark R. Baker
AOPA President and CEO

DID YOU KNOW

Mark Baker’s favorite aircraft is his Piper Super Cub, which he equips with floats or skis depending on the season.

INVESTING IN GENERAL AVIATION

AOPA FOUNDATION

Members are making a difference in general aviation with contributions above and beyond their membership dues. The AOPA Foundation is a 501(c)3 charitable organization, and together we are building a bigger, stronger, more resilient, and safer aviation community. Contributions to the AOPA Foundation support the important work of AOPA’s You Can Fly program and the AOPA Air Safety Institute, both of which are entirely donor-funded. To learn more or make a tax-deductible donation, visit aopafoundation.org.

YOU CAN FLY

The You Can Fly initiative is a collection of programs designed to provide that “nudge” to the folks who need it, with the end goal being a larger, more vibrant, and more resilient pilot community.

Through extensive research and real-world experience, AOPA has developed programs to support flying clubs, encourage best practices in flight training, get lapsed pilots back in the air, provide resources and expertise to pilot groups across the country, and invite students to learn about careers in aviation.

Rusty Pilots

More than 38% of the lapsed pilots who attended a Rusty Pilots seminar in 2017 went on to complete a flight review and return to active flying status.

Flight Training

A comprehensive set of resources being built for flight schools will actively address a wide range of pain points that cause students to leave training before earning a certificate.

High School

Students are being introduced to careers in aviation and aerospace through a rigorous four-year aviation STEM-based curriculum. By 2021, our goal is to have a full suite of 9th to 12th grade curriculum in place in high schools nationwide.

Flying Clubs

This initiative focuses on promoting and building flying clubs so more pilots can enjoy the benefits of shared ownership and community.

The You Can Fly initiative is supported by generous donations to the AOPA Foundation. Learn more about how you can help by visiting youcanfly.aopa.org.
