Re: FAA's BasicMed program being able to fly to the Bahamas

Dear Mr. Spence:

In reference to the captioned, please be advised following review of the request from AOPA relative to the FAA's BasicMed program. The Bahamas Civil Aviation Authority has no technical objection to the use of FAA's BasicMed Certification under 14 CFR Part 68 for pilots flying to/from and within the Bahamas.

Kindly note the following no-objection does not provide authorization for conversion or validation of these Licenses/Medicals.

Thanks for your continued cooperation.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Charles B. Beneby".

Captain Charles B. Beneby
Director General

Cc. Mrs. Juliea Brathwaite-Rolle – Manager of Safety Oversight
Safety Oversight Department Personal Licensing Unit
