

What To Do If Your Temporary Airman Certificate is Expiring Soon

Several reports have been received by the FAA pertaining to Temporary Airman Certificates that will expire while the Federal government is partially shut down. During the partial shutdown the FAA is not processing these certificates so there is a chance that the Temporary Airman Certificate that was issued will expire prior to receiving the permanent airman certificate.

Local FAA offices (FSDOs, CMOs, and AEG's) should advise impacted airmen of the ability to check the status of their certificate on www.faa.gov and to request a temporary authority to exercise certificate privileges, which is valid for 60 days, via Airmen Online Services.

NOTE: This addresses all airmen (pilots, ground instructors, flight instructors, flight engineers, flight navigators, mechanics, air traffic control tower operators, aircraft dispatchers, repairmen, and parachute riggers) for whom the application was processed, but a certificate was not mailed or not yet received.

Steps to do this are shown below:

Step 1: Check to see if your application has been processed:

- Navigate to www.faa.gov. Click on *Licenses & Certificates* as highlighted below

The screenshot shows the FAA website interface. At the top, there is a navigation bar with links for 'About DOT', 'Our Activities', and 'Areas of Focus'. Below this is the FAA logo and the text 'Federal Aviation Administration'. A search bar is present. The main navigation menu includes 'Aircraft', 'Airports', 'Air Traffic', 'Data & Research', 'Licenses & Certificates' (highlighted in green), 'Regulations & Policies', and 'Training & Testing'. Below the navigation bar, there is a featured article titled 'U.S. DOT Secretary Elaine L. Chao Announces Several New Drone Initiatives' with a date of 'January 14'. To the right of the article is a 'Look Up N-Numbers' section with a search input field and a 'Go' button. Below that is a 'Check Airport Status and Delays' section with an 'Airport code' input field and a 'Go' button. At the bottom, there is a 'Regulations and Guidelines' section with a list of links: 'Advisory Circulars', 'Airworthiness Directives (AD) — Current Only', 'Federal Aviation Regulations (FAR)', 'Forms', 'Orders & Notices', 'Recent Rulemaking Documents', and 'Temporary Flight Restrictions (TFR)'. On the right side of the 'Check Airport Status and Delays' section, there are two status indicators: 'Airport Closures' with a green '0' and 'Ground Stoppages' with a red '1'.

- **Step 2:** The airman should select *Search Airman Certificate Information* as highlighted below. Fill out the information in the website to see what the FAA shows as your most recent certificate information.

ADS B EQUIP NOW!

- If the information from the website matches your current Temporary Airman Certificate that is about to expire, your application has been processed by the FAA and you can request temporary authority to exercise privileges or a replacement certificate from Airmen Online Services.

NOTE: Make sure you are comparing the information from this website to your current Temporary Airman Certificate that is about to expire in order to avoid operating with a previous certificate.

- **Step 3:** Navigate to Airmen Online Services at the following web address - https://www.faa.gov/licenses_certificates/airmen_certification/airmen_services/.
- **Step 4:** If this is the first time that the airman has been to this site they will need to *Create an account* (see top highlighted area).
- **Step 5:** Once the account is established, the airman should click on *Login* to get access to Airmen Online Services. (see bottom highlighted area).
