February 1, 2022

## NOTICE

To Whom It May Concern:

After consulting with the FAA, counsel, consultants, and the public, the Town Board of the Town of East Hampton has voted to close the East Hampton Airport. This closure will occur at 11:59 p.m. on February 28, 2022. All air navigation facilities at the East Hampton Airport—including but not limited to the runways, taxiways, navigational aids, runway lighting, taxiway lighting, instrument landing approaches, and automated weather services—will be deactivated and unavailable for use after February 28, 2022. A new, private use airport will open at 9:00 a.m. on March 4, 2022. Upon opening, air navigation facilities will be available for aeronautical use.

All leaseholders, licensees, or other occupants at the East Hampton Airport will remain in the same legal status at the new airport subject to the same terms already in place. No new agreements or arrangements will be provided or required as the Town will remain the owner and operator of the new airport.

If you have any questions regarding the content of this Notice, please contact Town Attorney John Jilnicki at [JJilnicki@EHamptonNY.gov](mailto:JJilnicki@EHamptonNY.gov).
