LUKE AFB SPECIAL AIR TRAFFIC RULE REQUIREMENTS OF FAR 93.177 MUST BE MET

The Luke AFB Special Air Traffic Rule Terminal Area is described in FAR 93.176 and is active during official daylight hours Monday through Friday while Luke pilot training is underway, as broadcast on the local Automatic Terminal Information Service (ATS) from LUF, DVT, GEU, and GVR towers

OPERATIONS IN THE SPECIAL AIR TRAFFIC RULE (SATR) AREA: Unless otherwise authorized by Air Traffic Control (ATC), no person may operate an aircraft in flight within the SATR Area unless the following requirements are met:

1. Before operating within the SATR Area, that person establishes radio contact with the Luke RAPCON; and
2. That person maintains two-way radio communication with the Luke RAPCON or an appropriate ATC facility while within the SATR Area.

Requests for deviation from the provisions of this section apply only to aircraft not equipped with an operational radio. The request must be submitted at least 24 hours before the proposed operation to Luke RAPCON at 623-856-6448.

NOTE: When the Luke AFB Special Air Traffic Rule is in effect, pilots operating NORTH of Luke AFB shall contact LUKE APP in 118.15, pilots operating SOUTH of Luke AFB shall contact LUKE APP on 125.45, prior to entering the SATR Area.
