3. Individual Overall Scores & Responses

Total Score	Student Review
90.00	<p>Elwood was my main instructor for getting my PPL and I cannot rate him high enough. I had such a fun time every lesson and felt like I got the most out of each one. He made each experience a good one and he is a good teacher in general. Everything was explained clearly and I felt prepared for my stage check when the time came. He was so helpful and flexible with his schedule which I was so grateful for since I was so busy. He's great!</p>
90.00	<p>Mr. Elwood leverages his years of teaching experience combined with a true passion for aviation into his role as a flight instructor. My son and I are learning to fly together, which has been an amazing experience, and Mr. Elwood serves as the instructor for both of us. His ability to modify his style to provide a tailored teaching format to both of us plays incredibly well to addressing the strengths and weaknesses my son and I independently bring as students. His lessons are clear and concise and his communications before, during, and after each lesson are exceptional. Mr. Elwood's flight preparation is amazing and he is routinely prepared to move forward to the next training module if my son and I demonstrate proficiency in the planned module. This is an unexpected but incredibly beneficial and appreciated trait. Mr. Elwood has taken an amazing father/son bonding experience to another level with his professionalism, abilities, communication, and preparation.</p>

89.00	Andrew is an absolutely amazing instructor as well as person! Andrew made sure to try to connect with me on a personal level but also ensure I learned everything I needed to know about flying. He was very good at explaining things in detail to ensure that I understood everything that was going on! Andrew even spent extra time explaining things to me if he had it that he did not have to do. Overall he went above and beyond and made me feel extremely welcomed! He is the perfect example of what a flight instructor should be!

10. Net Promoter Score

10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	8	88.89%
9	1	11.11%

10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

Detractor: Less likely to use your services again and may not speak highly of your services to others.

Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.

Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	9	100%

10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers who are 'promoters.' Thus, the overall Net Promoter Score can range from -100 to 100.
