

Report for Cirrus Aviation at KSRQ

Region: Awards Consideration (includes report card)

Below is a summary of scores and feedback from all the usable evaluations which were submitted for you during the 2026 Flight Training Experience Award application period. Many flight training providers receive exceptionally high scores so we also share with you the distribution of the overall aggregate scores for comparison.

1. Eligibility

To be eligible for an award, you needed to receive at least 10 unique evaluations, each at least 80% complete.

A survey response was considered 'usable' if the respondent answered at least 80% of the questions required for scoring.

A Flight School was considered 'eligible' for an award if they received at least 10 unique, usable responses.

Average scores were based on all usable responses received and have been rounded where necessary

Your percentile rank was calculated by comparing your score to scores of all other(nominated/eligible) Flight Schools

Percentile ranks were calculated at both national and regional levels and may have been rounded.

Your performance (percentile rank) compared to all other eligible Flight Schools in your region was one of many factors that informed award decisions.

You received 9 evaluations.

2. Free Responses

At the end of each evaluation, we ask the following open-ended question:

Why should or shouldn't your school win a Flight Training Experience Award?

3. Individual Overall Scores & Responses

Total Score	Student Review
89.00	They should win because they are a school that truly cares. I don't feel like just a number.
90.00	Cirrus Aviation stands out as a flight school that truly delivers the complete training experience. Cirrus Aviation combines professionalism, safety, and personalized mentorship to create confident and capable pilots.
83.00	Cirrus should win this award for the fact that have been the most vital part of my flight training in the last three years of my life. All 76 of the hours which I currently hold are from Cirrus. My primary instructor as well as many other instructors are all very hospitable and friendly to new and experienced students alike, and the overall mood of the school is always cheerful.
88.00	Cirrus Aviation is a wonderful Flight school where I had the chance to work and also fly. The entire staff is kind, and all the student are treated according to their needs.

	I started flying 60 years ago at age 17 and hold a Commercial Pilot's license. I used to be a CFI. I mention this information to give you an idea of my perspective. I lived abroad and owned and flew a Pitts S-2A for 35 years. I moved back to Florida and have been flying at Cirrus since 2022. I am presently with Matthew Goeders, CFI and my experience with him has been extremely favorable. I wanted to get back into form and "get the rust off" and have learned a great deal from him. Cirrus is a very serious flight school and everyone is very professional. This is what I was looking for, a place where I could receive excellent instruction while being understood as a pilot and a person.
87.00	
83.00	My son flies at Cirrus Aviation in the Sarasota airport. From the moment we toured the facility he knew this was where he belonged. What was discussed during the tour has been delivered without fail. The communication between the flight instructor and student is amazing, scheduling department, finance department, ground school and on and on is second to none. If you want to be fast tracked to get your ratings this is the right place.
78.00	Great instructors, well designed curriculum
81.00	They have done an excellent job with my training. I would highly recommend.
78.00	Knowledgeable, professional, and dedicated instructor staff, administrators, and support personnel are all dedicated to the performance of their student population.

10. Net Promoter Score

10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	9	100%

10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

Detractor: Less likely to use your services again and may not speak highly of your services to others.

Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.

Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	9	100%

10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers you are 'promoters.' Thus, the overall Net Promoter Score can range from -100 to 100.
