90.00	<p>I'd like to recommend Jorge for Best Instructor of the Southern Region because he's truly one of a kind when it comes to flight training. From day one, Jorge made flying something I looked forward to every single time. He has this rare mix of patience, professionalism, and passion that makes learning both challenging and enjoyable. He doesn't just teach you how to fly — he teaches you how to think like a pilot. Whether it's breaking down a tricky maneuver, explaining systems, or helping you stay calm when things get intense, he's always there with the right mix of encouragement and honest feedback. What really stands out about Jorge is how much he cares. He remembers where each student struggles, adapts his teaching style, and celebrates every bit of progress with you. He makes you want to be better — not just to pass a checkride, but to truly earn the title of pilot. There are plenty of good instructors out there, but Jorge goes above and beyond every single day. 90.00	<p>George has been an amazing instructor who has guided me through my instrument training. He has taken his time with me, doing group grounds and connecting me with other students. He helps each other out, creating a sense of community. He also simplifies things for me to understand, which has helped me get through my instrument training.</p>

88.00	<p>I first came in contact with Jorge when I was doing my multi engine training and was making a payment after a flight. He asked me how the flight was, I was telling him how I'm getting use to the emergency procedures and how it was a lot to remember. He told me not to stress so much about it, I have more time to go through the memory items and checklist than I think so don't rush it. Those simple words gave me a lot of confidence for my next flight. Fast forward to a couple of weeks ago I got to train with Jorge because my instructor was out of town. I was having a hard time maintaining my altitude doing steep turns. Jorge pulls out an instrument cover and tells me to place it on the horizon in front of me and to focus on it while I'm turning.. I was able to maintain my altitude. Then he had me take it off but still focus on the spot while I'm turning. I did, and I was able to maintain the altitude. That one tip helped my steep turns tremendously in the multi. Jorge is an awesome instructor with the knowledge, and the patience to help aspiring pilots to achieve their goals in a fun, but safe learning environment. He is one of the instructors I would recommend him to everyone.</p>

## 10.Net Promoter Score

### 10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	33	97.06%
8	1	2.94%

10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

- Detractor: Less likely to use your services again and may not speak highly of your services to others.
- Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.
- Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	33	97.06%
Passive	1	2.94%

10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers you are 'promoters.' Thus, the overall Net Promoter Score can range from - 100 to 100.
