

Report for Laurence Abernathy at 76F

Region: Awards Consideration (includes report card)

Below is a summary of scores and feedback from all the usable evaluations which were submitted for you during the 2026 Flight Training Experience Award application period. Many flight training providers receive exceptionally high scores so we also share with you the distribution of the overall aggregate scores for comparison.

## 1. Eligibility

To be eligible for an award, you needed to receive at least 5 unique evaluations, each at least 80% complete

A survey response was considered 'usable' if the respondent answered at least 80% of the questions required for scoring.

A CFI was considered 'eligible' for an award if they received at least 5 unique, usable responses.

Average scores were based on all usable responses received and have been rounded where necessary.

Your percentile rank was calculated by comparing your score to scores of all other (nominated/eligible) CFIs. Percentile ranks were calculated at both national and regional levels and may have been rounded.

Your performance (percentile rank) compared to all other eligible CFIs in your region was one of many factors that informed award decisions.

You received 6 evaluations.

## 2. Free Responses

At the end of each evaluation, we ask the following open-ended question:

Why should or shouldn't your CFI win a Flight Training Experience Award?

## 3. Individual Overall Scores & Responses

Total Score	Student Review
83.00	<p>Larry was a great mentor and very insightful in the training environment. He taught me what it means to be an effective instructor and mentor for students. I came to him as a CFII for a CFI rating and he helped me close the gap that was a foundational understanding of FOIs and knowledge of CFI training. He consistently met with me and advised me on where I should seek improvement.</p>
90.00	<p>I was working on my CFI when Larry took over my instruction. He took me to the next level. Larry's expertise and experience gave me the edge I needed to pass my practical exam. But he didn't stop instructing me after I passed. He continues to mentor me and encourage me to be a better instructor. Larry did not end his career when he retired from the airlines. He continues his own career while setting so many of us off on our own.</p>
90.00	<p>I believe Larry should receive this award for his strong passion for teaching aviation, his in-depth knowledge of the field, and his unwavering dedication to his students. His ability to inspire confidence, foster growth, and create a positive learning environment sets him apart as an exceptional instructor. Larry consistently goes above and beyond to ensure his students not only master the skills of flying but also develop a deep appreciation for aviation safety and professionalism. His commitment to excellence truly embodies what it means to be a Certified Flight Instructor.</p>

89.00	Mr. Abernathy deserves this award because he is one of the best flight instructor in Texas. He ensures that his students are well equipped for their checkride and the experience to be a successful pilot.
90.00	Larry has a wealth of knowledge and experiences that are 100% relatable to the students training, No mater what rating they are trying to obtain. He provides the training material in a thoroughly thought out process where each lesson builds upon the previous lesson. He also provides real world scenarios that encourage the students to apply the theories that have been taught. Larrys goal is to have the student using the learned techniques and rules to analyze the scenarios to ensure safe and efficient flight operations thru-ought all phases of flight. Larry is hands down THE BEST instructor!
90.00	He is exceptionally knowledgeable and has the ability to explain even the most complex topics in a way that is clear and easy to understand. His dedication to his students and their success is evident in everything he does. He takes the time to understand each individual's needs and adapts his teaching style to ensure every student feels supported and has the best opportunity to excel.

## 10. Net Promoter Score

### 10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	6	100%

### 10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

Detractor: Less likely to use your services again and may not speak highly of your services to others.

Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.

Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	6	100%

### 10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers you are 'promoters.' Thus, the overall Net Promoter Score can range from -100 to 100.
