

Report for Barry Loomis at KLNA

Region: Southern

Below is a summary of scores and feedback from all the usable evaluations which were submitted for you during the 2026 Flight Training Experience Award application period. Many flight training providers receive exceptionally high scores so we also share with you the distribution of the overall aggregate scores for comparison.

### 1. Eligibility

To be eligible for an award, you needed to receive at least 5 unique evaluations, each at least 80% complete

A survey response was considered 'usable' if the respondent answered at least 80% of the questions required for scoring.

A CFI was considered 'eligible' for an award if they received at least 5 unique, usable responses.

Average scores were based on all usable responses received and have been rounded where necessary.

Your percentile rank was calculated by comparing your score to scores of all other (nominated/eligible) CFIs. Percentile ranks were calculated at both national and regional levels and may have been rounded.

Your performance (percentile rank) compared to all other eligible CFIs in your region was one of many factors that informed award decisions.

You received 9 evaluations.

### 2. Free Responses

At the end of each evaluation, we ask the following open-ended question:

Why should or shouldn't your CFI win a Flight Training Experience Award?

## 10. Net Promoter Score

### 10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	8	88.89%
8	1	11.11%

### 10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

**Detractor:** Less likely to use your services again and may not speak highly of your services to others.

Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.

Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	8	88.89%
Passive	1	11.11%

### 10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers you are 'promoters.' Thus, the overall Net Promoter Score can range from - 100 to 100.
