Total Score	Student Review
81.00	Pilot Rise Flight School creates a great learning environment for student pilots. The instructors are friendly, patient, and truly care about helping each student succeed. They take the time to explain things clearly and make sure you feel safe and confident before every flight. The school is also very well organized. The planes are kept in great condition, and scheduling lessons is easy. Whether you are just starting out or working toward a career in aviation, Pilot Rise gives you the support and tools you need to reach your goals. What makes Pilot Rise special is the community. Everyone from the instructors to the staff welcomes you like family. They celebrate your progress and help you through any challenges. It is more than a flight school. It is a place where future pilots grow.
89.00	Every instructor I have had the pleasure of flying with has been amazing. They care about their students and their success as a student, while ensuring I am safe in every aspect from the planes we fly to knowing when to cancel due to weather or other factors. I have never had a problem getting on the schedule that works with me even as a full time employee as a software engineer. They work to accommodate your schedule all day including weekends. I was matched with Carson due to our similar schedules and like to wake up and fly early and our personalities mesh really well.

83.00	Excellent training syllabus with dedicated instructors that will tailor each student's training to suit their needs. Instruction is meticulously detailed, and adheres to a safety oriented culture. However, Pilot Rise instructors encourage students to expand their training horizons and challenge themselves in less than ideal flying conditions to improve pilotage overall in a safe and calculated manner.
82.00	Pilot Rise was the right flight school for me. Even though I was working full time during my PPL flight training, they were always had enough aircraft and instructor availability to keep me flying and learning effectively. And its location in the NW quadrant of the DFW class B minimized time spent flying to the practice areas so that time could be focused on learning and gaining experience. The owners and staff are professional and care about their student's success. And their commitment to safety is apparent in everything they do. After completing my training with them, I passed my PPL check ride on the first attempt. I couldn't ask for better preparation.

10. Net Promoter Score

10.1 Questionnaire Responses

The Net Promoter Score is generated by asking customers how likely they would be to recommend a given product or service - in this case, your services as a flight instructor to another potential customer, on an 11 point scale.

How likely are you to recommend your CFI to someone interested in flight training?

Response Choice	Frequency	%
10	25	83.33%
9	2	6.67%
8	3	10%

10.2 NPS Grouping

Responses to this question are then used to sort customers into one of three groups:

Detractor: Less likely to use your services again and may not speak highly of your services to others.

Passive: Generally somewhat satisfied, passive respondents likely won't help or hurt your business in talking to other people.

Promoters: Ideally, all of your customers would be promoters. Promoters would fly with you again in the future and would tell others how great they think you are.

Response Choice	Frequency	%
Promoter	27	90%
Passive	3	10%

10.3 Standardized Score Calculation

The overall Net Promoter Score is calculated by subtracting the percentage of your customers who are 'detractors' from the percentage of your customers you are 'promoters.' Thus, the overall Net Promoter Score can range from - 100 to 100.
